

# Raspberry Pi Robotics - Group 1

---

This is a repository for sharing the work on the Robotics class. The code, documentation, and other related files for each projects will be organized and collaborated here.

## About this README

This readme provides a general overview of this repo. Individual assignments may have their own additional documentation within the respective sub folders as necessary.

## Directory Structure in This Repo

- Each assignment will have it's *own* subfolder
- all files for that project will be located in subfolders
- other class-related files may appear in top-level directory
